Sir / Madam,I respectfully urge the FCC to reject the NAB's petition 04-160. As I pay for the radio service I resent you trying to regulate what I listen to. I travel at night in a very rural state and it is nice to know if what the weather is a little out in front of me. Here in north eastern Montana there isn't any local radio. I sure don't need NAB telling me in Montana what I can or can not X-M radio is a steady friend over the long haul, please reject NAB's petition 04160.

Thanks  
Mahlon Manson
